

Questionnaire - Heating with BWP heating pump

Name, address of customer: _____

Name, address of stove fitter / heating installer:

Please answer the following questions regarding the design layout of the heat pump-stove heating:

1. Standard building heating-load according to DIN EN 12831 at standard design temperature

_____ kW -10°C -14°C
 -12°C -16°C

2. EnEV data according to DIN 4108 area-related annual requirement Q_h in kWh/m²a and floor space of the building A_n

Q_h : _____ kWh/m²a and A_n : _____ m²

3. Which heaters are used in the heating system?

	flow	return
<input type="checkbox"/> underfloor heating	_____	_____
<input type="checkbox"/> radiators	_____	_____
<input type="checkbox"/> convectors	_____	_____

4. Fields of application of the heat pump

room heating hot water generatron heating for swimming pool

5. How long is the distance between the outdoor unit and the room with the hydraulic components BHZ 3.0 or BWT in m?

_____ m

6. What is the shortest distance between the outdoor unit and the neighboring property in m?

_____ m

7. Does your energy supplier deliver you a special locking contact or provide you a separate heating pump supply? (off-periods must be taken into account)?

yes no

If yes, please specify the duration of the off-period (in hours): _____ h

8. Do you intend to use electricity from photovoltaic systems for the operation of the heat pump?

yes no

9. Are you planning to install a water-bearing device of BRUNNER or other manufacturers in your heating system?

yes no

If yes, which: _____

10. Do you intend to use other additional heating generators?

yes no

If yes, which: _____

Legal note

The data provided by you are treated in accordance with the General Data Protection Regulation and the Federal Data Protection Act.

You assure that the information is complete and correct. They serve as a basis for the planning and calculation of your plant. We assume no liability for calculations or planning based on incorrect, incorrect or incomplete information. If the plan we have created is used for the construction of another manufacturer's equipment, we assume no liability or warranty.
